Re: Notice of File Closure for Small Mining Activities, San Rafael Energy, Inc., Probe Mine,
S/015/011, Emery County, Utah

Dear Mr. Jacobson:

This letter is to notify you that Division file #S/015/011, for the Probe Mine, located in the SE1/4 NW1/4 of Section 14, T21S, R14E, Emery County, Utah, will now be closed.

The Division last inspected the Probe Mine on October 9, 1998, and found the shaft closures intact and the reclaimed areas to be stable from an erosional standpoint. As a result of this file closure you are hereby released from further reclamation responsibility at this small mine site. Division release does not constitute a release from the BLM, or other appropriate state and federal land managing agency.

If you wish to conduct any future mining in this area, you will need to submit a new notice to the appropriate agency(s), pay the Division permit fees, and receive written approval prior to creating any disturbance. If you have any questions or concerns regarding this action, please contact me at (801) 538-5267. Thank you for completing the required reclamation on this project.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
